

# NEW VILLAGE HALL PROJECT

Delivered with your Shutford News are concept plans for the new village hall. This project is really gaining momentum with villagers pledging funds towards the rebuild costs and lots of Shutford people offering help in the delivery of this important village building.

The committee have planning officer support for the current design and the Village Hall Committee would now like to submit a planning application to secure a consent for the new building.

Could we therefore ask **all villagers to feedback on the design and layout of the hall.**

If villagers have ideas for a particular use or activity that can be incorporated at this stage, please do get in touch.

It might be possible to include some indoor sports activities, or facilities for musical performances and recording, and perhaps dance equipment in some form, or other interesting community activities for villagers.

This is our opportunity to **build a new hall that provides flexible space and includes what villagers really want.** Please do feedback with your ideas and comments to:

[newvillagehall@shutford.info](mailto:newvillagehall@shutford.info), or to the following postal address:

Grooms Cottage  
Cooks Hill  
Shutford  
OX15 6PL

If anyone is interested in the project and **want to help by either pledging funds or offering help**, then please contact the Chair of the Steering Group, Gordon Freeman on the email below:
