

# Shutford Parish Council Emergency Plan

**DRAFT FEBRUARY 20, 2024**

The purpose of this plan is to ensure that all potential risks which could result in damage to property, injury to villagers or result in a denial of access to the village or inconvenience to residents have been considered and that all potential steps to reduce the risk or alleviate the impact have been investigated and suitable steps agreed. The plan includes contact details for all relevant personnel and organisations but should be amended/added to as appropriate.

However, if you or anyone else is in immediate danger you should:

**CALL 999 and follow all advice provided by the emergency services before considering the content of this guide.**

## Introduction

### Why we need a community Emergency Plan

Whilst Shutford is a small rural village, which is fortunately considered low risk, emergencies do happen and whilst generally the impact will be limited in scope and severity it is important that we ensure that we have suitable communication channels and actions agreed to restrict the potential impact.

This document is intended to ensure that all necessary contact details and relevant actions are detailed in a single document which is available to everyone.

Whilst emergencies can make anyone vulnerable it is important that we recognise that some members of our community are more vulnerable than others and that our response always reflects this.
